Welcoming the innovative women to present their vision

FIRST NATIONAL EVENT (Exclusively for Women)

Theme:

Empowering Women Through Sustainable Innovation

Sub-Themes:

- Women in Farming and Food
- Community Solutions by Women
- Food and Nutrition/ supplements/ diets
- Girls in Science and Technology
- Sustainable Fashion and Recycling
- Eco-Friendly Innovations by Women
- Electronics and Electrical Sciences.

Objectives of the EWIOS:

- To develop activities of interest to women inventors and encourage inventors;
- To develop cooperation among women inventors
- To highlight and recognize the creative power of women
- To motivate women and girls to participate in the fields of science and technology.

To achieve the objectives of this program Prasansa Foundation focuses on making the maximum positive effort for our community. Prasansa Foundation is providing this platform to utilize the services of skilled and experienced people to support women inventors and to expand their innovation in and around the world.

EWIOS Activities: Provide common Platform to the women inventors with their innovation across the country. This will include deliberations, displaying innovations in the common platform, Collecting write-ups in the form of Abstract and publishing of popular science lectures.

Special Features: Recognition for your Innovation, Participation across the country, Certificate & Cash award.

Target Group

- Participants between 18 to 21 years (Juvenile Researchers)
- Participants between 22 to 35 years (Youth Researchers)

Why you should participate:

- Become Role Model for Youth,
- Display your innovative Solutions
- Find pathways to Success through Science & technology.
- Join the Star Indian Women innovators

Background of the program: Prasansa Foundation holds the conviction that both males and females share equal responsibility and talent to contribute toward technological development and promotion. Women innovative talent needs to be realized by their active engagement in innovative activities. Prasansa Foundation has a determined board of experts consisting of specialists in various fields in order to assist the girl and women innovators and inventors to overcome the challenges, they face by providing the required consultations on diverse aspects of the invention. Outstanding Innovation by Women inventors and economically deprived projects/innovation and outstanding innovative science projects with potential for commercial applications are being presented at various platform every year. These need recognition and hand holding to develop into startups. Exposition of Women inventors and its outreach for sustainability offer this opportunity.

Methodology/Work plan: Women from Science based institutions, universities, laboratories, NGOs, etc., will be invited to display their talents/technologies and if the entries are by eligible women, they will be invited to participate in the fair. Projects that have the potential for converting into startups will be invited from women community.

Potential Projects will be screened for the Exposition of Women inventor and its outreach for sustainability. Best Twenty-five (20) women innovation will also be screened for participation in National Events of EWIOS.

Management with clear description of roles and responsibilities:

- Organization will ask nominations from the target groups directly or through their institutions.

Nominations shall be accepted through EWIOS website www.ewios.info
